◆ Gemini for Google Workspace

The power of AI integrated into Google Workspace.

The integration offers a wide range of benefits for creating content and improving workflows. Discover the innovative features and experience them first-hand through our Guided Evaluation for Gemini for Google Workspace.

Gemini Guided Evaluation

✍ Mit den Experten der PCG

Discover the value of Gemini for Google Workspace for your organization and make an informed decision based on a guided evaluation.

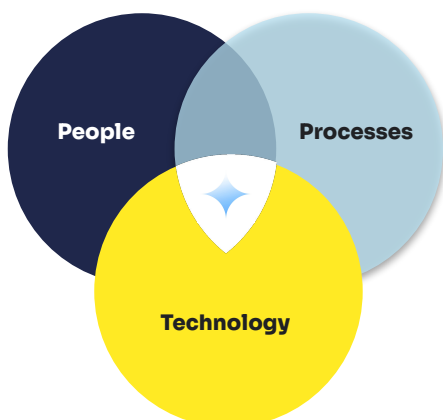

We will work with you to define success metrics, train your users, and be your point of contact throughout the pilot.

Process

- **Kickoff:** Overview of Gemini for managers and stakeholders, walkthrough of program elements, development of success criteria
- **Enablement:** Sessions for your test users and weekly office hours, as well as FAQs, manuals, and quick start guides.
- **Business Impact:** A series of before, during and after surveys tailored to your business and the areas you want to improve with GenAI.
- **Presentation of results:** A summary of the results, user quotes, quantitative and qualitative feedback from the testing phase.

Getting Started with the PCG

As a long-standing Google Cloud Premier Partner, we have the people, experience and expertise to help you implement Gemini for Google Workspace.
